The Performing Arts Connection

The Performing Arts Connection

About Our Summer Theater Workshops

Aspiring young performers have been enjoying our Summer Theater Workshops since 2000. Students are immersed in a musical theater intensive program that emphasizes artistic growth and building confidence! Our summer program is appropriate for all levels - from your first show to the pre-professional actor!

One-Week Wonders

The goal of our One-Week Wonders is to give students with all levels of experience the chance to hone their musical theater skills while rehearsing for a show. Our unique blend of challenge and encouragement captivates both beginners and seasoned performers alike. This is a process-based program, where confidence, fun and friendships take center stage! We foster a supportive environment where every performer can shine.

Summer Theater Lab

Summer Theater Lab is designed for the serious performer looking to take their skills to the next level. The two-week format allows students to dive deeper into character development, immerse themselves in the rehearsal process, and form stronger connections with their castmates. Previous dance and theater experience is recommended.
